### Ask About Team Creator

During these challenging COVID times, we realize we have to change the way we photograph sports while maintaining social distancing. Just Picture It Photography has been working hard to provide you with safe options for team and individual photos. We can now extract your individual player photos, composite them, and place the team back on a background template or design. Below is a diagram of how the process works.

## Custom Framed Prints

We can make a custom poster and then put it in a custom frame, ready to put on the wall.

Contact us about custom sizes, mounts & pricing
